

EZ LIFT™ MANUAL CHAIN PRODUCTS

R&M's manual chain products lead the industry in durability and safety. Whether you need a manual chain hoist or a beam clamp, R&M has the right solution for you!

RISE ABOVE™

RM SERIES II

Our RM II manual chain hoists are available in 1/4 - 10 ton (250 - 10,000 kg) capacities and come standard with a 10 ft (3m) lift, or with any custom lift height up to 98 ft (30m). The standard top hook design can be paired with one of R&M's manual trolley options, or opt for an integral hand geared chain trolley or manual push trolley 1/2 - 5 ton (500 - 5000 kg) capacities, which lowers the overall headroom of the hand chain hoist and trolley.

RMLHC PUSH TROLLEY & RMLC HAND GEARED TROLLEY

Low headroom integral trolley option available for ½ - 5 ton (500 - 5000 kg) capacities.

The RBC beam clamp features a built-in suspension bar for easy attachment to the load and tough steel construction. The versatile jaws are designed to mount on a wide range of flange widths, and are suitable for tapered or flat beam types.

Model	Capacity Ton [kg]	Beam Flange Width Inch [mm]	Weight Lbs. [kg]

RPT PUSH TROLLEY & RPTC HAND GEARED TROLLEY

R&M trolleys are designed for both manual and electric operated hoists with a top hook suspension. Both the RPT push trolley and RPTC hand geared trolley are easily adjustable for a wide range of flange widths. Our RPTs are available in 1/4 - 5 ton (250 - 5000 kg) capacities, and the RPTCs are available in 1 - 10 ton (1000 - 10,000 kg) capacities.

RL LEVER PULLER

The RL lever puller is able to operate in tight spaces with 360° handle rotation. This lever puller is equipped with important safety features, including a dual pawl Weston-style brake with two friction discs providing four braking surfaces and an all-steel construction. The RL lever puller meets or exceeds international design standards, including ASME B30.21. The RL manual lever pullers are available from 1/4 - 3 ton (250 – 3000 kg) capacities. The lever pullers come standard with a 5 ft (1.5m) lifting height, but additional chain lengths are available.
