

SPACEMASTER® ROPE HOISTS 1/2 - 250 TON (500 - 250,000 KG) CAPACITIES

SX Low Headroom Trolley

- Space-saving compact designs
- Best solution for single girder cranes

SX Normal Headroom Trolley

- Monorail and jib crane applications

SX Double Girder Trolley

- High capacities & special applications available
- Superior clearance and headroom

PDW

- Process-duty winch
- Wide variety of heavy-duty applications

EX Hazardous Location Hoists

- Class I, Division 2 with Groups B, C and D, and Temperature Class T3
- Class I, Division 1 with Groups C and D and Temperature Class T4

SXL Heavy Lifting Winch

- Open winch electric overhead hoist
- Designed for demanding, heavy-duty applications

SXR Low Headroom Trolley

SPACEMASTER® SXR Rope Hoists

- Maintenance-friendly, robust mechanical design
- Data-driven maintenance with HoistMonitor® Enclave and OLI Comm network
- Connected features support operator efficiency and safety
- Core of lifting, drive train components are designed and built in-house, specifically for hoisting applications
- Options for tough environments, like synthetic rope, thrust rocker and belt drive

SXR Double Girder Trolley

ELECTRIC CHAIN HOISTS 1/8 - 5 TON (125 - 5000 KG) CAPACITIES

LR Electric Chain Hoists

- 1/8 - 2 ton (125 - 2000 kg) capacities
- U-shaped suspension bracket for lug or hook mounting in one design

LK Electric Chain Hoists

- 2 - 5 ton (2000-5000 kg) capacities
- Top hook suspension

Trolleys

- Push, two-speed or variable speed available

Digichain™ Ergonomic Controls

- Work station crane applications

CRANE PACKAGES 1/2 - 80 TON (500 - 80,000 KG) CAPACITIES

QX® Modular Crane Packages

- Top or underrunning designs
- All components are CSA C/US approved
- PRQ ergonomic pendant controller

NRGmaster Crane Packages

- Increase hook coverage on floor
- Decrease maintenance pitfalls associated with traditional C-track festoons
- Radio control comes standard

QLP Push Crane Packages

- Single or two-speed hoist controls
- LR or LK electric chain hoist
- Push style end trucks
- Standard crane spans up to 30 ft (9.144 m)

QL Modular Crane Packages

- LR or LK electric chain hoist with motorized trolley
- Single girder top running/single girder underrunning crane configurations
- Standard crane spans up to 62 ft (19 M)

CONTROLS AND CONDITION MONITORING

ControlMaster® Crane Inverter Control Systems

- Economical, variable frequency drive solution as standard for trolley and bridge motions
- Optional ControlMaster® Anti-Sway system designed to decrease and control load sway

ASR & ESR Inverter Hoisting Control

- ASR = Open loop control / speed supervision
- ESR = Closed Loop / extended speed range
- Quick delivery & improved safety

HoistMonitor® Enclave Condition Monitoring

- R&M's HoistMonitor® Enclave device provides real-time data on the condition of your hoist while protecting from overloads
- User-friendly readouts on the OLI app

PENDANTS, RADIOS & CRANE COMPONENTS

PRQ Pendant Controller

- Pistol-grip ergonomic design
- NEMA 4 & IP65 enclosure ratings
- CE, cUL, & CCC certification

RaCon® ARC Radio Control

- Pigtail + plug matched to your equipment
- 2 transmitters powered by AAA batteries
- UL C/US and CE approvals

Crane Components

- Top running and underrunning designs
- Bolted connection plates

EZ-LIFT™ MANUAL CHAIN PRODUCTS & R&M OEM PARTS 1/4 - 10 TON (250 - 10,000 KG) CAPACITIES

RM Series II Manual Chain Hoist

- Grade 80 alloy steel load chain with galvanized finish

RL Lever Puller

- Able to operate in tight spaces with 360° handle rotation

RBC Beam Clamp

RPT Push Trolley

RPTC Hand Geared Trolley

R&M OEM Parts

- Extend the life of your equipment
- Protect your warranty
