INDUSTRIES WE SERVE

R&M PRODUCTS ARE USED DAILY IN VARIOUS INDUSTRIES AND VASTLY DIVERSE ENVIRONMENTAL CONDITIONS. LET US HELP YOU RISE ABOVE!

POWER PLANTS

We're no stranger to building packages for critical operations. Products like our SXL heavy lifting winch offer the broad range of lifts and capacities needed to keep the lights on.

AUTOMOTIVE

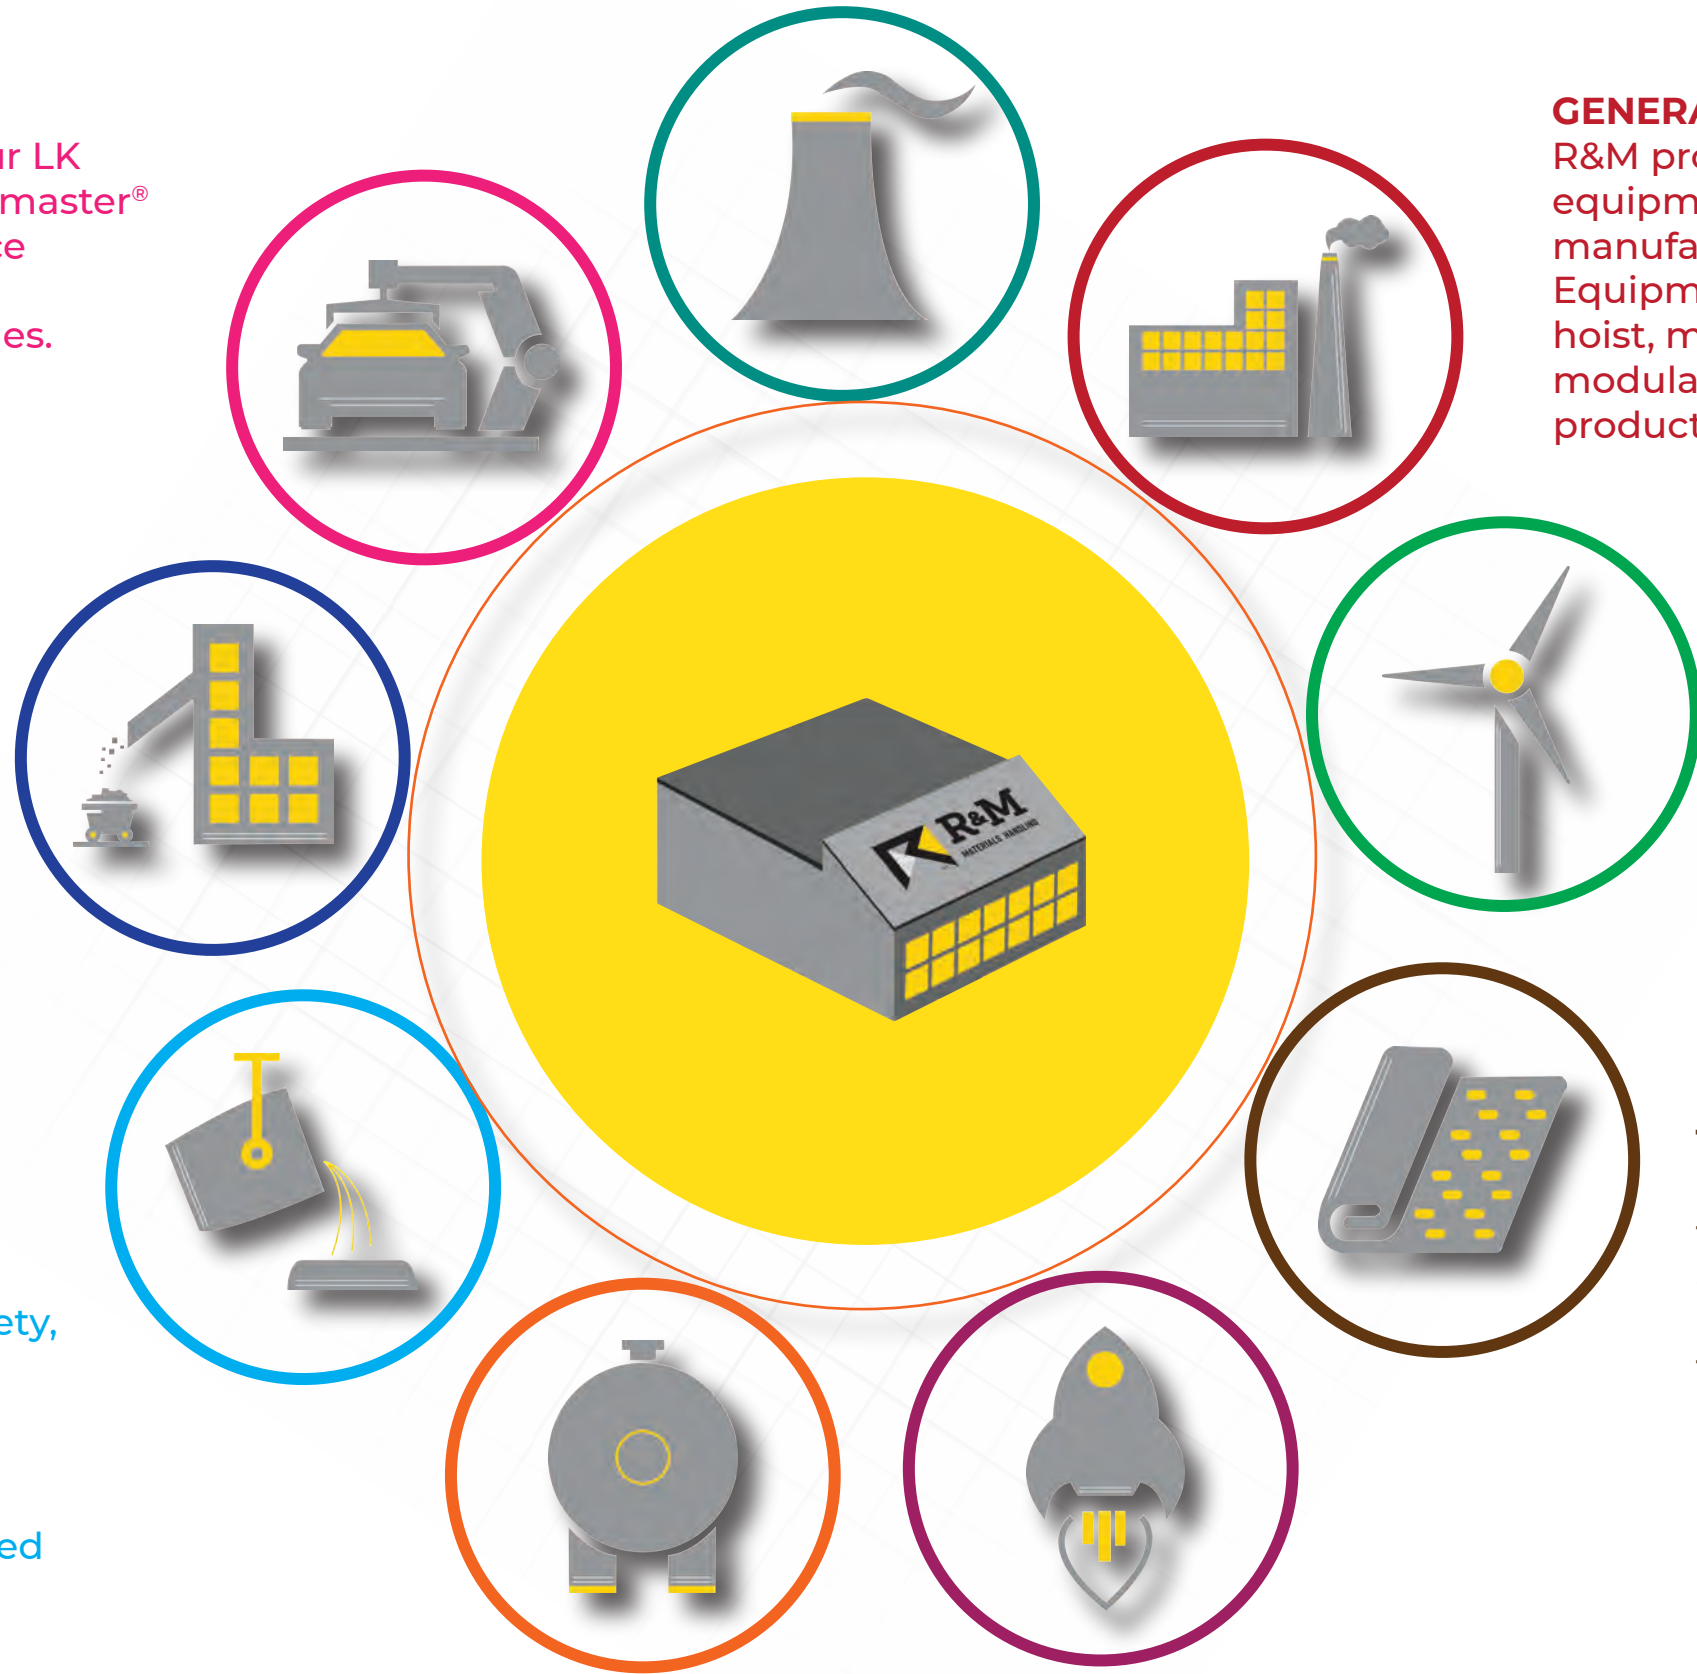

See how R&M products like our LK electric chain hoist and Spacemaster® SX wire rope hoist can enhance operational efficiency of your automotive manufacturing lines.

MINING

The Spacemaster® EX — a Class 1, Div 2 hazardous locations hoist — can make your open-cut and underground mining operations safer and more efficient.

METAL PRODUCTION AND FABRICATION

Our SXL heavy lifting winch and Spacemaster® SX wire rope hoist, can improve safety, speed and productivity of operations across metal production and fabrication plants. Our wire rope hoist crane packages are equipped for large loads.

GENERAL MANUFACTURING

R&M provides customized lifting equipment that helps your manufacturing operations rise above! Equipment, like the LK electric chain hoist, manual chain products and SX modular crane packages maximize production and ensure safety.

WIND POWER

The LK electric chain hoist can be installed inside the wind turbine nacelle to assist with standard maintenance activities.

TEXTILES

R&M's innovative features & tools, like the HoistMonitor® & NRCmaster crane, keep production on track in textile facilities.

PETROLEUM AND GAS

Our industry-leading products, like the Spacemaster® SX wire rope hoist, can be equipped for corrosive and high-temperature environments. ControlMaster® inverter controls provide better performance and prolong the equipment life.

AEROSPACE

The QX® wire rope cranes packages are designed to maximize your floor coverage and make the best use of your building space.
