SPACEMASTER® WIRE ROPE HOISTS 1/2 - 250 TON (500 - 250,000 KG) CAPACITIES

SX Low Headroom Trolley

Space-saving compact designs

Best solution for single girder cranes

SX Normal Headroom Trolley

Monorail and jib crane applications

SX Double Girder Trolley

High capacities & special applications available

Superior clearance and headroom

DXW Heavy-Duty Hoist

Designed for demanding, heavy-duty applications

EX Hazardous Location Hoist

Class I, Group C & D, Division 2

SXL Heavy Lifting Winch

LK ELECTRIC CHAIN HOISTS 1/8 - 5 TON (125 - 5000 KG) CAPACITIES

Top Hook or Lug Mount

Manual Trolley

Push or hand geared trolleys available

Motorized Trolley

Two-speed or variable speed available

Low Headroom Trolley

Most economical low headroom chain hoist in the industry

Digichain™ Ergonomic Controls

Work station crane applications

All SX and LK hoists are HMI-Certified℠

RISE ABOVE™

CRANE PACKAGES 1/2 - 80 TON (500 - 80,000 KG) CAPACITIES

QX® Modular Crane Packages

- Top or underrunning design
- All components are CSA C/US approved
- PRQ ergonomic pendant controller

NRGmaster Crane Packages

- Increase hook coverage on floor
- Decrease maintenance pitfalls associated with traditional C-track festoons
- Radio control comes standard

QLP Push Crane Packages

- Single or two-speed hoist controls
- LK electric chain hoist
- Push style end trucks
- Standard crane spans up to 30 ft (9.144 m)

QL Modular Crane Packages

- LK electric chain hoist with motorized trolley
- Single girder top running/single girder underrunning crane configurations
- Standard crane spans up to 62 ft (19m)

CONTROLS AND CONDITION MONITORING

ControlMaster® Crane Inverter Control Systems

- Economical, variable frequency drive solution as standard for trolley and bridge motions
- Optional ControlMaster® Anti-Sway system designed to decrease and control load sway

ASR & ESR Inverter Hoisting Controls

- ASR = Open loop control / speed supervision
- ESR = Closed Loop / extended speed range
- Quick delivery & improved safety

HoistMonitor® & HoistWatch Condition Monitoring

- HoistMonitor® & HoistWatch assist in the safe operation, maintenance and performance of the hoist

PENDANTS, RADIOS, & CRANE COMPONENTS

PRQ Pendant Controller

- Pistol-grip ergonomic design
- NEMA 4 & IP65 enclosure ratings
- CE, cUL, & CCC certification

RaCon® 3 Radio Control

- Ergonomic one-hand usability
- CSA C/US certification
- Transmitter protection NEMA type 4 (IP65)

Crane Components

- Top running and underrunning designs
- Bolted connection plates

EZ LIFT™ MANUAL CHAIN PRODUCTS & R&M OEM PARTS 1/2 - 10 TON (250 - 10,000 KG) CAPACITIES

RM Series II Manual Chain Hoist

- Grade 80 alloy steel load chain with galvanized finish

RLP Premium Lever Puller

RL Lever Puller

RBC Beam Clamp

RPT Push Trolley

RPTC Hand Geared Trolley

R&M OEM Parts

- Extend the life of your equipment
- Protect your warranty
